What is the National Leadership College?

The National Leadership College (NLC) is an annual leadership and development program recognising young leaders in Surf Life Saving (SLS) aged between 20 and 30 years. Participants come from a variety of clubs, roles and SLS backgrounds. Ideally participants will have attended a state leadership program, however they may have attended similar leadership programs through work or study. The NLC is an essential step in the SLS Leadership Pathway.

The NLC provides an exciting opportunity for young people within the movement to further develop their leadership skills and continue to positively contribute to the success of SLS. As well as learning new skills and creating opportunities for personal growth, NLC will open new networks with other likeminded passionate members across the country, who are also committed to making a difference within the movement. The NLC is designed to challenge participants intellectually, socially, emotionally and physically. The skills gained are designed to be taken back to clubs and into other areas of the participant's daily environment, with the aim of contributing to SLS's mission statement of saving lives, creating great Australians, and building better communities.

Each day includes keynote speakers, elective sessions, activities and challenges relating to the leadership theme of the day. Participants are allocated a mentor and have ongoing opportunities for review and further development.

Participants also benefit from exposure to the larger national movement. Networking with members from clubs nationally is a highlight as they share ideas and create new friendships and networks, with the opportunity to see the big picture for SLS as they gain greater exposure to national goals and aspirations. Through the sharing of ideas, resources and future directions, NLC provides an opportunity to create an effective national movement.

What is the Multicultural and Indigenous Scholarship?

As part of Surf Life Saving Australia's strategy to encourage diversity within the movement, we are offering four (4) fully funded Scholarship opportunities to members from culturally and linguistically diverse (CALD) or Aboriginal and Torres Strait Islander (ATSI) backgrounds to take part in the National Leadership College 2023.

How does the Multicultural and Indigenous Scholarship help?

Without educational opportunities and role models from their own community, young members may not realise the possibilities available to them. The Multicultural and Indigenous Scholarship provides opportunities to emerging leaders within Indigenous and multicultural communities to gain skills, confidence, become future leaders within their communities and strengthen the links between all Australians.

In addition to helping students achieve their educational aspirations, the Scholarship will help contribute to the development of a pool of positive role models and future leaders from Indigenous and Multicultural communities, to inspire others to become involved and engaged within SLS and illustrate the successes that can be achieved through education.
